- EXPERIENCE** *Blockchain Consultant and Architect* June 2018 - Present
Deqode, India
- Started as a Blockchain Developer. Worked with Ethereum (smart contracts), wallet and exchange implementations of Bitcoin, Dogecoin, other altcoins, and, Hyperledger Fabric. Worked with microservices architecture.
 - Quickly rose through the ranks and became a blockchain consultant. Devised technical architecture for organizations who want to port their existing system to blockchain, and lead internal projects. Handled the position of interim marketing and strategy head during the rebranding operations of the company. Responsible for driving strategic alliances in the US and Europe and managing a dedicated team of two web developers, a data analyst and two marketing executives.
 - Projects:
 - Universal Crypto Wallet:** Integrated Bitcoin and its clones using a single nodejs library (bitcoin-js). Created an open source library: dogecore (bitcore clone), Implemented job queuing.
 - Blockchain Architecture:** Devised blockchain architecture for SMB loan provider, supply chain organizations (hospital SCM, pharma SCM (with DSCSA compliance), white-label), portfolio management and auditing organization.
 - Internal projects:** Lead a team of web developers to create Deqode's new website. Developed end-to-end applications using Node.js for sales automation (Scrapers, Email-Finder). Established data analysis and AI practice.
 - Strategy and Marketing:** Devised a seven point enterprise strategy - initiated conversations with some of the biggest names around the globe. Took all technical calls with enterprises and managed project life-cycles. Handled the entire rebranding operations of the company - from renaming to establishing the brand. Used unorthodox branding and sales techniques combined with traditional ones.
 - Blaze Protocol:** Lead blockchain developer for Blaze Protocol. Worked on health check and WPOS consensus mechanism.
- Application Development Associate* May 2017 - June 2018
Accenture, India
- Worked as a Java developer for one of the biggest banks in Europe. Developed an internal email system for the bank using Struts framework. End to End development of various modules in the project. Monitored the entire process of deployment from QA to production and fixed defects.
 - Handled general project activities which included document analysis, document designing, database modeling, interface designing, scope management.
- OTHER ROLES** *Founder and CEO* December 2013 - March 2016
Crizic, Subcontinent
- One of the founders of the (now-dysfunctional) infotainment and sentimental

analysis based pop-culture website, Crizic, along with an experienced IT professional and management consultant.

- Helped rank the beta version amongst the top content websites worldwide, and made it one of the most visited pop-culture media website in the subcontinent.

Freelancer and Intern

Summers 2013 - 2017

AISECT (National Skill Development Corporation), Yug Shakti (Ministry of Rural Development), Kyra Infosoft (FoodZard), Skills Root Consulting

- Interned at AISECT and Yug Shakti. Handled minor DB operations. Worked as a technical mentor.
- Worked with Kyra Infosoft as a web designer and content writer. Was advisor of food delivery service 'FoodZard'.
